NSAM CYP continues to focus on restoring capacity to our School Age Care (Kinder-6th grade) and Child Development Center (infant-preschool) programs, which are still understaffed and not fully open at this time. We are working through our reset stages and staffing challenges. As soon as we have sufficient staffing our goal is to re-open the Teen Center, date TBD. When we are able to reinstate our in-person teen programs, we will contact you with the date and registration steps.

Please send and email to TechConnection@nps.edu if you are interested in receiving a personal update on reopening. This doesn’t mean there are no teen programs in the area, or places to meet new people! Please see below for other teen programs and activities in the Monterey Peninsula.

Skate Parks:

- **Seaside: Cutino Skate Park**
